JioPay Collect Payment Gateway Overview

JioPay Collect is a flexible solution designed to help businesses generate payment collection links for remote payments, allowing businesses to collect payments at any point after fulfillment. It is ideal for businesses that need to handle payments after service or product delivery, providing both convenience and security.

Key Features:

1. **Generate Payment Links on Demand:**

   - **JioPay Collect allows businesses to create payment collection links instantly whenever needed. These links can be sent to customers for easy and secure payments.**

2. **Digitize Payment on Delivery (COD):**

   - **Businesses can use this feature to collect payments after delivering a product or service, digitizing the traditionally manual cash on delivery (COD) process.**

3. **Manage Invoices:**

   - **The platform allows businesses to manage GST-compliant invoices, making it easier to handle the documentation of transactions.**
   - **Businesses can generate invoices as per their needs and ensure they are compliant with GST regulations.**

4. **Increase User Retention:**

   - **By offering flexible payment schedules, businesses can cater to customers with varying payment needs, fostering better customer relationships and increasing user retention.**

5. **Scheduled Payment Collection:**

   - **Businesses can schedule payment collection links, helping automate the payment process and ensure timely payment.**

6. **Customizable Payment Experiences:**

   - **Businesses can customize the payment experience by setting the payment schedule, tracking receivables, and sending reminders for due payments, ensuring an efficient collection process.**

Advantages:

- **Increase Customer Trust:**

  - **By offering customers the flexibility to pay after receiving the product or service, businesses can enhance trust and satisfaction.**
- **Flexible Payment Collection:**

  - **Payment links can be sent at any time, offering flexibility and convenience to both businesses and their customers.**
- **GST-Compliant Invoices:**

  - **The feature allows businesses to issue GST-compliant invoices, ensuring legal compliance while simplifying record-keeping.**

Ideal For:

- **Businesses that need to facilitate deferred payments or remote payments after fulfillment, offering flexible payment methods to their customers, such as COD or post-service payment.**

Key Metrics:

- **300 Million+ Transactions processed**
- **100K+ Unique merchants**
- **7 Million+ Cards tokenized**
